## PROFESSIONAL SUMMARY

Experienced Data Center Technical Assistant with 6+ years of hands-on experience in server administration, VMware virtualization, NetApp ONTAP System Manager, Veeam Backup & Replication, and data center operations. Proven track record supporting mission-critical infrastructure at Vikram Sarabhai Space Center (ISRO). Skilled in ESXi/vCenter management, NetApp FAS 8300 & ONTAP System Manager, hardware maintenance, RAID configuration, and Linux/Windows system administration in high-availability environments.

## CORE COMPETENCIES

- |                                                |                                               |
|------------------------------------------------|-----------------------------------------------|
| • VMware ESXi 7.0 / 8.0 & vCenter              | • VMware vSphere, HA & DRS                    |
| • VMware Site Recovery Manager (SRM)           | • vSphere Replication & Disaster Recovery     |
| • HP iLO / Dell iDRAC / IBM IMM / Cisco UCS    | • Hardware-Level RAID Configuration           |
| • LVM Configuration & Management               | • CentOS / Linux & Windows Administration     |
| • Server Hardware Maintenance & Repair         | • OwnCloud Storage Management                 |
| • NFS & ESXi Datastore Management              | • Data Backup & Recovery                      |
| • UPS / Battery Bank Monitoring                | • Network Troubleshooting                     |
| • Data Center Environmental Monitoring         | • Virtual Networking (vSwitches, Port Groups) |
| • NetApp FAS 8300 & ONTAP System Manager       | • Veeam Backup & Replication                  |
| • Storage Policies, Quotas, Snapshot Schedules | • NFS Share Management                        |

## PROFESSIONAL EXPERIENCE

### Data Center Technical Assistant

Sivavasu Electronics Industries | VSSC (ISRO), Thiruvananthapuram

Nov 2024 – Present

- Manage VMware Workstation and vSphere environments supporting critical ISRO operations.
- Administer VMware HA and DRS clusters for automated failover and resource balancing.
- Implement VMware Site Recovery Manager (SRM) and vSphere Replication for disaster recovery.
- Administer and manage NetApp storage systems FAS 8300 using ONTAP System Manager; configure and manage SVMs, aggregates, and volumes.
- Implement storage policies, quotas, snapshot schedules, and replication on NetApp systems.
- Monitor storage performance, utilization, and system health using ONTAP System Manager.
- Manage NFS shares for ESXi datastores and general file-sharing infrastructure.
- Administer and support Veeam Backup & Replication infrastructure; manage backup jobs and perform restore operations.
- Troubleshoot Veeam backup failures and performance-related issues to ensure data protection SLAs.
- Manage OwnCloud-based storage infrastructure enabling secure web-based file access.
- Troubleshoot vCenter and vCenter Appliance issues to ensure continuous availability.
- Create and manage Virtual Machines using VMware Standalone Converter (v6.2, 6.3, 6.4).
- Configure virtual networking (vSwitches, port groups); allocate CPU, RAM, and storage for VMs.
- Replace and upgrade server hardware: motherboards, HDDs, RAID controllers, PSUs, RAM, and processors.

### Data Center Technical Assistant

Mini Electrical and Engineering Works | VSSC (ISRO), Thiruvananthapuram

Feb 2022 – Nov 2024

- Installed, configured, and maintained VMware ESXi 7.0 / 8.0 and vCenter in production.
- Monitored and optimized performance of ESXi hosts and Virtual Machines.
- Managed ESXi Host Datastores and NFS mounts; resolved low-to-moderate VMware issues.

- Administered HP iLO, Dell iDRAC, IBM IMM, and Cisco UCS for out-of-band server management.
- Configured and maintained LVM, CentOS/Linux, and Windows platforms on production servers.
- Performed hardware-level RAID configuration and OS installation on new servers.
- Created server clones for backup; troubleshoot hardware and network issues.
- Conducted daily routine health checks and maintained all network processes in the data center.

### **Data Center Technical Assistant**

Sarabhai Memorial Society | VSSC (ISRO), Thiruvananthapuram

*Feb 2020 – Feb 2022*

- Monitored and maintained 250+ servers in a large-scale mission-critical data center.
- Supervised BMS, fire suppression, water leakage detection, and surveillance camera systems.
- Installed OS, updates, and licensed applications per user requests; performed hardware maintenance.
- Monitored UPS and battery bank status and environmental conditions to ensure uptime SLAs.
- Performed hardware-level RAID configuration, OS installation, and data backup/recovery tasks.

### **Technical Support Engineer**

Solus Security Systems Pvt. Ltd. | VSSC (ISRO), Thiruvananthapuram

*Sep 2019 – Feb 2020*

- Performed scheduled maintenance and monitoring of all security equipment and systems.
- Executed preventive maintenance: battery replacements, sensor cleaning, and wiring repairs.
- Installed and serviced biometric access control devices on-site.
- Provided first-level support for user access-related issues.

### **Technician Trainee**

Vinayaka Electricals | VSSC (ISRO), Thiruvananthapuram

*Sep 2017 – Sep 2018*

- Assisted in electronics system servicing and maintenance operations.
- Supported maintenance of external plant for VSSC EPABX systems.
- Facilitated smooth internal operations and communication within the organization.

## **EDUCATION**

### **B.Tech – Electronics and Communication Engineering**

Sarabhai Institute of Science and Technology, Velland, Thiruvananthapuram | 2014 – 2017

### **Diploma – Electronics and Avionics**

Government Polytechnic College, Neyyattinkara, Thiruvananthapuram | 2011 – 2014

### **Higher Secondary (Class XII)**

G.H.S.S Kazhakuttom | 2009 – 2011

### **S.S.L.C (Class X)**

G.H.S.S Kazhakuttom | 2008 – 2009
